

Print out the bookmarks on regular paper or cardstock, cut them out, and fold them along the dashed line so the design is two-sided.

To make the bookmark “grab” a page, tape or glue a small magnet to the inside of the bookmark. Make sure to glue the correct side of the magnets so they don’t repel. Place the bookmark around the page to hold your spot.

To make a two-sided bookmark, glue the two sides together so the design is on the outside. Place it in the book like a regular bookmark.
